

# LED Trimless Downlight Instruction Leaflet

**VJC**  
LIGHTING

DL3546

**EN**

Read this instruction carefully before commencing installation and keep it for future reference.  
Always switch off the mains before installation or maintenance.  
Keep the product far from heat sources and in a well ventilated area.  
The installation or maintenance should be carried out by a qualified electrician.

The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.

If the product is marked as "Fire-rated", it is tested to EN1365.  
If the product is insulation material coverable, it is tested to IC-F.
